

# LENOX WOODMASTER C-SHARP

## PREMIUM GROUND TOOTH BLADES FOR HIGH PERFORMANCE WOOD CUTTING

- EXCELLENT BLADE LIFE ON PORTABLE SAWMILLS AND RESAW**  
 Proprietary backing steel provides extended fatigue life for multiple sharpenings.  
 New tooth geometry limits fatigue cracks in the gullet and aids in dust removal.
- SMOOTH, EFFICIENT CUTTING AT INCREASED FEED RATES**  
 Ultra-sharp ground teeth and consistent tooth heights provide smooth cuts and faster feed rates.  
 Precision engineered set teeth reduce cutting forces and allow for efficient chip removal.
- EXTREMELY VERSATILE**  
 7° rake angle aids in cutting frozen lumber and seasoned hardwoods.  
 10° rake angle provides efficient cutting in general purpose applications and green lumber.  
 Wider gauges deliver stability and optimal performance on high-powered mills.

Description	TPI	Tooth spacing	Hook angle	Side set	Application	Box of 10
1-1/4" x 132" x 0.035"	1.1	7/8"	10°	0.022"	General Purpose	210 \$CAN
1-1/4" x 144" x 0.042"	1.1	7/8"	10°	0.022"	General Purpose	220 \$CAN
1-1/4" x 144" x 0.042"	1.1	7/8"	7°	0.022"	Frozen or Hardwood	220 \$CAN
1-1/2" x 144" x 0.042"	1.1	7/8"	10°	0.022"	General Purpose	Out of stock
1-1/4" x 156" x 0.042"	1.1	7/8"	10°	0.022"	General Purpose	260 \$CAN
1-1/4" x 158" x 0.042"	1.1	7/8"	10°	0.022"	General Purpose	272 \$CAN
1-1/4" x 162" x 0.042"	1.1	7/8"	10°	0.022"	General Purpose	282 \$CAN
